Integrated DLC loops when spare facilities are available, and the choice of technically feasible methods of Integrated DLC loop unbundling.[434]

134. Despite rejecting Cavalier's proposed contract language relating to unbundled Integrated DLC loops, we note that Verizon is obligated under other, undisputed terms of the Agreement to provide unbundled Integrated DLC loops when a spare copper loop or Universal DLC loop is not available. Specifically, section 11.2 of the Agreement provides, in pertinent part:

> Subject to the conditions set forth in Section 11.7, Verizon shall allow Cavalier to access Loops unbundled from local switching and local transport as required by Applicable Law, in accordance with the terms and conditions set forth in this Section 11.2. *The following enumeration of specific loop types in this Agreement does not preclude Cavalier from requesting, to the extent Verizon is required to provide under Applicable Law, additional Loop types.*[435]

Pursuant to this provision, Cavalier is entitled to request unbundled Integrated DLC loops, as permitted by the *Triennial Review Order* and Commission rules, even though unbundled Integrated DLC loops are not specifically enumerated in the interconnection Agreement.

135. We further note that section 11.7.6 of the Agreement specifies that, in those cases where Cavalier requests an unbundled loop to serve a customer that Verizon is serving using an Integrated DLC system, "Verizon shall, where available, move the requested Loop(s) to a spare physical Loop, if one is existing and available, at no additional charge to Cavalier."[436] Section 11.7.6 then proceeds to state that:

> If, however, no spare physical Loop is available, Verizon shall within three (3) Business days of Cavalier's request notify Cavalier of the lack of available facilities. Cavalier may then at its discretion make a Network Element Bona Fide Request to Verizon to provide the unbundled Local Loop through the demultiplexing of the integrated digitized Loop(s). Cavalier may also make a Network Element Bona Fide Request for access to Unbundled Local Loops at the Loop concentration site point. Notwithstanding anything to the contrary in this Agreement, standard provisioning intervals shall not apply to Loops provided under this Section 11.7.6.[437]

---

[434] The *Order* recognizes that incumbent LECs have successfully provided unbundled access to Integrated DLC loops through various methods, including the hairpin method requested by Cavalier. *Triennial Review Order*, 18 FCC Rcd at 17154, para. 297 n.855.

[435] Aug. 1 Draft Agreement § 11.2 (emphasis added).

[436] *Id.* at § 11.7.6.

[437] *Id.*

As discussed above, where a spare copper loop or Universal DLC loop is not available, Commission rules require Verizon to unbundle the Integrated DLC loop itself. Subject to that underlying unbundling obligation, however, Verizon is free also to continue to offer Cavalier the options specified in section 11.7.6.[438]

136. With respect to Cavalier's request that the rates for unbundled Integrated DLC loops should be the same as for an unbundled loop provisioned over copper, we conclude that Cavalier has not provided evidence that would allow us to determine appropriate TELRIC rates for unbundled Integrated DLC loops. We agree with Verizon that Cavalier has not justified this rate proposal. Indeed, Cavalier has presented no evidence to support any determination of the proper rates for unbundled Integrated DLC loops beyond its mere assertion in its proposed contract language. Verizon, on the other hand, also has not provided any cost-related data demonstrating that rates for unbundled Integrated DLC loops should not be the same as for copper loops. Because the Parties did not submit evidence regarding the cost of provisioning an unbundled Integrated DLC loop in those circumstances where no spare copper loop or Universal DLC loop is available, we have no basis for considering appropriate rates in this Order.

137. As a result, under the Agreement as it currently stands, because the Parties have provided no evidence relating to the appropriate costs of Integrated DLC loop unbundling, loops unbundled pursuant to section 11.2 that are not specifically enumerated, such as Integrated DLC loops, are priced through the Bona Fide Request (BFR) process:

> Verizon shall, upon request of Cavalier and to the extent required by Applicable Law, provide to Cavalier access to its Network Elements on an unbundled basis for the provision of Cavalier's Telecommunications Service. Any request by Cavalier for access to a Verizon Network Element not provided pursuant to this Agreement or pursuant to another interconnection agreement in accordance with the terms and conditions of Section 28.13 hereof shall be treated as a Network Element Bona Fide Request.[439]

This BFR process will govern until the Parties negotiate a provision that specifically establishes the rates, terms, and conditions for access to a transmission path over hybrid loops served by Integrated DLC systems.

d. Arbitrator's Adopted Contract Language

138. As discussed above, the Arbitrator does not adopt any new language regarding issue C14, but instead clarifies that other, undisputed provisions in the Agreement require Verizon to unbundle Integrated DLC loops when no spare copper loop or Universal DLC loop is available.

---

[438] *See supra* para. 132.

[439] *Id.* at § 11.8.1. Although we do not resolve the pricing of unbundled Integrated DLC loops in this proceeding, we note that any charges imposed through the BFR process should not allow double-recovery by permitting Verizon to recover for costs that also will be included in recurring or non-recurring charges imposed on other competing carriers in the future. *See Virginia Arbitration Order*, 17 FCC Rcd at 27274, para. 478 & ns. 1958-99.

9. Issue C16 (Pole Attachments)

a. Introduction

139. The Parties disagree about language Cavalier proposes in an attempt to expedite the pole attachment process. Section 251(b)(4) of the Act requires all LECs to provide access to poles, ducts, conduits, and rights-of-way in a nondiscriminatory manner consistent with section 224 of the Act.[440] The current pole attachment arrangements permit Verizon, as well as all other entities attached to Verizon's poles, to "engineer" the pole to make it ready for a new attachment and to bill the new attacher accordingly.[441] Cavalier proposes language that would change Verizon's make-ready process for accommodating Cavalier's pole attachment requests under section 224 of the Act.[442] Verizon opposes Cavalier's proposal, asserting that it would affect the rights of nearly every other attacher in Virginia,[443] and indicating Verizon has streamlined its pole attachment process since Cavalier last made use of the process.[444]

b. Positions of the Parties

140. Cavalier wants to substitute the current system which involves multiple rounds of engineering and make-ready work on a single stretch of poles by each attacher with a single, unified engineering and make-ready process.[445] Under Cavalier's proposal, a single third party contractor would simultaneously perform the engineering and make-ready services on behalf of all attached entities on the pole, and render the new attacher a single bill.[446] Cavalier claims it has experienced excessive pole attachment delays and make-ready costs in the past.[447] It concedes that the Commission stopped short of requiring such a procedure in a recent pole attachment case, but asserts that the Commission left the door open for such a future requirement

---

[440] 47 U.S.C. § 251(b)(4). Section 224 provides for the regulation of pole attachments on poles owned by utilities including local exchange carriers, electric, gas, water, steam, or other public utility. 47 U.S.C. § 224; *see also* 47 C.F.R. § 1.1403.

[441] Cavalier Direct Testimony of Ashenden at 8-10; Cavalier Brief at 48-49. This process is referred to as the "make-ready" process. This means that Verizon, the power company, the cable company, and any other attached competitive LEC each send out separate field teams to determine the impact on their respective attachment and to take any necessary steps to accommodate the planned new attachment. *See* 47 U.S.C. §§ 224(h), (i).

[442] Final Proposed Language at 21-25 (Cavalier Proposed § 16.2).

[443] Verizon Brief at 42.

[444] Tr. at 337-39; Verizon Brief at 44.

[445] Cavalier Arbitration Petition at 23-24.

[446] Cavalier Brief at 49.

[447] Cavalier Rebuttal Testimony of Ashenden at 13; Cavalier Brief at 49. Cavalier implicitly concedes that other attachers often caused the delays it faced. Cavalier Brief at 48-49.

by indicating that such a process would probably be more efficient.[448] Cavalier's proposed language would also require Verizon to complete the engineering and make-ready work process within 45 days after its application is submitted.[449] Cavalier believes that this proceeding is an appropriate forum for resolving this dispute, as Verizon is the primary obstacle to its resolution.[450]

141. Verizon argues that Cavalier's proposal should be rejected for at least three reasons: (1) it calls for Verizon to assume the role of project coordinator for all pole attachers in Virginia, which it is not required to do under the Act; (2) Cavalier is not in a position to complain the current process is inefficient because Cavalier has insufficient experience with it;[451] and (3) even if a new process were needed it should be addressed in a proceeding which would allow for the participation of all affected attachers.[452] Instead, Verizon proposes to continue following the current pole attachment process which the Virginia Commission and this Commission approved in approving its section 271 application.[453] Verizon also points to the

[448] Cavalier Direct Testimony of Ashenden; Cavalier Rebuttal Testimony of Ashenden at 9 (citing *Cavalier Telephone Company, LLC v. Virginia Electric and Power Company,* File No. PA-99-005, Order, 17 FCC Rcd 24414 (2002) (*Virginia Electric and Power*)); Cavalier Brief at 49-50.

[449] Final Proposed Language at 24-25 (Cavalier Proposed § 16.2.8). The proposed final language, however, conflicts with Cavalier's statement that it would like to see an end-to-end 45-day process, but would be satisfied if applications were approved or denied within 45 days (without restarting the 45-day clock at a whim as it alleges Verizon does) and make-ready work completed within a reasonable time. Cavalier Rebuttal Testimony of Ashenden at 12-13.

[450] Cavalier Rebuttal Testimony of Ashenden at 11-12. Cavalier states that it has been able to reach a similar agreement with entities other than Verizon and that such a process has been followed in eastern Virginia where Verizon's poles are not involved. Cavalier Direct Testimony of Ashenden at 11; Cavalier Rebuttal Testimony of Ashenden at 11.

[451] Verizon Rebuttal Testimony of Young at 4; Verizon Brief at 43. Verizon notes that in the two year period since Cavalier experienced delays associated with prior attachments to Verizon's poles, Verizon has modified and centralized its pole attachment process, appointing a Single Point of Contact (SPOC) based in Richmond. Tr. at 337-339; Verizon Brief at 44; Verizon Reply Brief at 44.

[452] Verizon Direct Testimony of Young at 7; Verizon Rebuttal Testimony of Young at 1-4.

[453] Verizon Direct Testimony of Young at 2-3; Verizon Brief at 42 (citing *Verizon Virginia Section 271 Order*, 17 FCC Rcd at 21986-87, para. 193). Verizon further asserts that in making its determination that Verizon was in compliance with Checklist Item 3, the Virginia Hearing Examiner in the state 271 proceeding rejected essentially the same argument from Cavalier. Verizon Direct Testimony of Young at 10; Verizon Brief at 42-43; Virginia Hearing Examiner's Report at 97. In addition, Verizon distinguishes the issue Cavalier raises here from what it characterizes as a superficially similar but fundamentally different issue in the *Virginia Arbitration Order.* Where WorldCom proposed the use of its own contractors to perform make-ready work on Verizon's poles due to a shortage of Verizon contractors, noting even that the Bureau adopted Verizon's language after Verizon agreed to a minor modification. Verizon Answer/Response at Exhibit A.

Commission's rejection of a similar pole attachment proposal by Cavalier in *Virginia Electric and Power*.[454]

c. Discussion

142. We decline to adopt the language proposed by Cavalier. First, the record indicates that Verizon's current pole attachment process has been streamlined and centralized since Cavalier's prior experience with the process.[455] Second, given the multilateral nature of pole attachment arrangements, the process contemplated by Cavalier's proposed language would affect the interests of numerous entities not parties to this Agreement.[456] These parties may refuse to embrace a unified process, resulting in Verizon's inability to implement the process advocated by Cavalier even if we were to adopt Cavalier's proposed language.[457] Finally, the language advocated by Cavalier would require Verizon to attempt to renegotiate potentially all of its pole attachment license agreements in Virginia, imposing a potentially unreasonable burden on Verizon in the absence of evidence of discriminatory treatment toward Cavalier.

143. In declining to adopt Cavalier's language, however, we note the need for continued processing of pole attachment applications in an efficient and timely manner. Competitive LECs like Cavalier that seek to attach to poles, as contemplated in section 251(b)(4) of the Act, do so to compete with incumbent LECs.[458] If evidence exists that the pole attachment process is not functioning to ensure that such access is made available expeditiously, Cavalier could revisit this issue in the future.

d. Arbitrator's Adopted Contract Language

144. The Arbitrator adopts the following language:

> 16.0 – ACCESS TO RIGHTS-OF-WAYS Section 251(b)(4) —To the extent required by applicable law and where facilities are available, each Party ("Licensor") shall provide the other Party ("Licensee") access for purposes of making attachments to the poles, ducts, rights-of-way and conduits it owns or controls, pursuant to any existing or future license agreement between the Parties. Such access shall be in conformance with 47 U.S.C. § 224 and on terms and

---

[455] Tr. at 337-338.

[456] These entities have § 224 rights under the Act as well rights under their individual License agreements with Verizon. Cavalier's proposal could affect these rights without their ability to be heard.

[457] The process advocated by Cavalier would be more appropriately considered on a statewide basis, where all entities to be affected by this process would have an opportunity to participate.

[458] *See* 47 U.S.C. § 251(b)(4).

conditions and prices comparable to those offered to any other entity pursuant to each Party's applicable tariffs (including generally available license agreements).

10. Issue C17 (Customer Contacts)

a. Introduction

145. Cavalier expresses concern about improper conduct by Verizon representatives either during misdirected calls intended for Cavalier or during calls to Cavalier customers initiated by Verizon. Cavalier proposes expanded obligations addressing each Party's conduct during contacts with the other Party's customers, and asks for mandatory investigations and liquidated damages in the event of improper conduct.[459] Verizon claims that its existing practices governing customer contacts are adequate, and thus objects to the additional obligations and liquidated damages proposed by Cavalier.[460]

b. Positions of the Parties

146. Cavalier states that there have been numerous instances of improper contacts between Verizon employees and Cavalier customers, including the disparagement of Cavalier, improper efforts to win back customers from Cavalier, and misrepresentation of Cavalier customers' obligations to Verizon or its affiliates.[461] Cavalier also expresses concern that Verizon's retail operations have access to information about Cavalier and its customers from Verizon's wholesale operations.[462] When Cavalier has brought concerns about improper contacts to Verizon's attention, it believes that Verizon has not taken adequate internal steps to address the problems.[463] Cavalier further maintains that it suffers economic harm from improper contacts, for which it is not compensated.[464]

147. To prevent these sorts of incidents from recurring, Cavalier recommends a variety of expanded obligations regarding both Parties' contacts with each other's customers. Specifically, Cavalier proposes to modify sections 18.2.1 and 18.2.2 of the Agreement, which govern a carrier's responsibility to serve as the single point of contact for its customers, to make these obligations equivalent for both Cavalier and Verizon.[465] In the event that one Party "receives or responds to an inquiry from a Customer of the other party, or a prospective Customer of the other party," Cavalier proposes prohibitions on marketing products and services,

465 Final Proposed Language at 25-26 (Cavalier Proposed §§ 18.2.1, 18.2.2).

and against disparaging or discriminating against the other Party during such contacts.[466] In such cases, Cavalier also proposes expanded obligations to provide referrals to the correct Party.[467] According to Cavalier, if, as Verizon claims, improper customer contacts are rare, then these provisions seldom will be triggered, creating only a small burden for Verizon.[468]

148. Cavalier suggests language requiring each Party to implement codes of conduct and train its employees regarding proper behavior during contacts with the other Party's customers.[469] Under Cavalier's proposal, an investigation and reporting system would be required in the event of reported improper customer contacts, with a system of liquidated damages that would apply in the event of verified misconduct.[470] Cavalier also proposes that remedies related to customer contacts specified in section 18.2 of the Agreement are not exclusive remedies, but that Parties also may pursue their claims in other appropriate fora.[471]

149. As a threshold issue, Verizon claims that Cavalier's proposals are "not appropriate for consideration in this arbitration, which is intended to determine the terms and conditions under which the Parties will satisfy their interconnection and other network access obligations under section 251 of the Act."[472] Regarding the substance of Cavalier's proposals, Verizon's proposed sections 18.2.1 and 18.2.2 only address Cavalier's responsibility to serve as the single point of contact for its customers.[473] In the remainder of section 18.2, Verizon proposes more limited language than Cavalier, requiring that Parties not disparage one another when responding to misdirected calls, and providing for referrals only in the case of misdirected repair calls.[474] Verizon alleges that, given the existing procedures it already has in place, the burdensome proposed investigation and reporting requirements and system of liquidated damages payments are not warranted by the small number of isolated instances of problematic customer contacts cited by Cavalier, nor by instances of lawful conduct on the part of Verizon's Yellow Pages affiliate.[475] Verizon further states that it should not be required to train its employees in the products and services offered by Cavalier in order to meet the extensive referral obligations suggested by Cavalier.[476] Finally, Verizon asserts that such mechanisms could create incentives

[466] *Id.* at 26 (Cavalier Proposed § 18.2.3.4).

[476] Verizon Direct Testimony of Smith at 16.

for competing carriers to assert dubious claims in the hopes of receiving liquidated damages payments.[477]

c. Discussion

150. As an initial matter, we reject Verizon's claim that this issue is not appropriate for consideration in the arbitration. Cavalier properly presented this issue in its petition and the arbitration, among other things, evaluates the terms and conditions relating to the Parties' compliance with section 251 of the Act and associated Commission rules.[478] Such compliance requires Verizon to interconnect with Cavalier and provide access to UNEs on "terms and conditions that are just, reasonable, and nondiscriminatory."[479] We note that it is Verizon's position as the provider of UNEs to Cavalier that gives rise to the possibility of such contacts in many instances, for example during contacts by Verizon personnel performing maintenance and repair on behalf of Cavalier.[480] We find that terms addressing each Party's contacts with the other Party's customers arising out of the relationships governed by section 251 properly may be considered in this arbitration. Moreover, we note that the Commission has considered factors such as improper customer contacts in evaluating carriers' compliance with their unbundling obligations for purposes of section 271.[481] We thus find that we may consider issue C17 raised by Cavalier.

151. We adopt Cavalier's proposed sections 18.2.1 and 18.2.2, which require Cavalier to serve as the contact point for inquiries or maintenance and repair requests from its end-user customers and Verizon to serve as the contact for inquiries or maintenance and repair requests from its end-user customers.[482] Although Verizon's proposed sections 18.2.1 and 18.2.2 do not expressly make these obligations mutual, Verizon acknowledges that such a division of responsibility is proper.[483]

152. We also adopt Cavalier's proposed sections 18.2.3, 18.2.3.1, 18.2.3.2, and 18.2.3.3, modified as discussed below.[484] Cavalier proposes to revise section 18.2.3 to eliminate

[481] *See, e.g., In the Matter of Application By SBC Communications Inc., Michigan Bell Telephone Company, and Southwestern Bell Communications Services, Inc. for Authorization to Provide In-Region, InterLATA Services in Michigan,* Memorandum Opinion & Order, WC Docket No. 03-138, 18 FCC Rcd 19024, 19070, para. 86 (2003) (considering claims of improper customer contacts for purposes of evaluating SBC's satisfaction of its OSS obligations under the standard of § 271).

[482] Final Proposed Language at 25-26 (Cavalier Proposed §§ 18.2.1, 18.2.2).

[483] Verizon Direct Testimony of Smith at 15.

[484] Final Proposed Language at 26 (Cavalier Proposed §§ 18.2.3 - 18.2.3.3).

the restriction that limits the section's scope to misdirected "repair" calls.[485] As Cavalier demonstrates, the possibility of problematic customer contacts is not limited solely to misdirected repair calls, but also could arise in the context of other misdirected calls.[486] Further, we note that Verizon's claimed current informal practices are not dissimilar to what would formally be required under this language.[487] Consistent with the evidence, we revise Cavalier's section 18.2.3.2 and 18.2.3.3 to eliminate the limiting reference to misdirected "repair" calls, instead applying those sections' referral and non-disparagement obligations to all types of misdirected calls.

153. We reject Cavalier's proposed section 18.2.3.4. This section would impose referral and non-disparagement obligations on each Party in the context of any calls from the other Party's customers or "prospective Customers."[488] It also would restrict each Party from providing information about its own products and services during contacts with customers or "prospective Customers" of the other Party.[489] Protection against disparagement and a referral obligation in the context of misdirected calls already are encompassed in the revisions to section 18.2.3.2 discussed above, and thus would be duplicative here. The proposed restriction on providing information about the called carrier's services is overly broad, and thus potentially anticompetitive. "Customers" or "prospective Customers" of one carrier with respect to certain services might also be customers or prospective customers of the other carrier with respect to other services. Such a broad restriction on a carrier providing information about its products and services to its own customers goes beyond the requirements of the Act and the Commission's rules. Indeed, as Verizon points out, the scope of "prospective Customers" could include virtually all customers located in Cavalier's service area,[490] and Cavalier offers no limiting definition that would allow it to be applied in a more reasonable manner. Given the protections of section 18.2.3.2 in the case of customers actually seeking to contact Cavalier, but contacting Verizon instead, the imposition of the unworkably broader requirements proposed by Cavalier is not justified.

154. We reject Verizon's proposed section 18.2.4 as unnecessary. As proposed, Verizon's section 18.2.4 imposes a non-disparagement requirement in the case of misdirected inquiries, other than repair calls, from the other Party's customer.[491] As discussed above, such protections already are incorporated into the modified section 18.2.3.2 we adopt.

488 Final Proposed Language at 26 (Cavalier Proposed § 18.2.3.4).

489 *Id.*

490 Verizon Brief at 46.

491 Final Proposed Language at 26 (Verizon Proposed § 18.2.4).

155. We adopt portions of Cavalier's proposed section 18.2.5, as discussed below. The first sentence of Cavalier's proposed section 18.2.5 imposes on each Party the obligation to implement procedures to ensure "appropriate professional conduct" by its employees when engaging in contacts with the other Party's customers and to train its employees with respect to that policy.[492] We find this to be a reasonable step for the Parties to take in ensuring that their employees act in a manner consistent with the obligations each Party has undertaken in this portion of the Agreement. Indeed, Verizon asserts that it already has policies of this general nature in place, and provides instructions to its employees with respect to those policies. We anticipate that such policies also would address other types of problems, such as misrepresentations to Cavalier's customers regarding their obligations for distinct services that they obtain from Verizon, which Cavalier raises but which do not appear to be the subject of any express language. In addition to adopting the first sentence of section 18.2.5, we also adopt the third sentence of section 18.2.5 that defines "appropriate professional conduct" for purposes of this section.[493] We decline, however, to adopt Cavalier's additional proposed language relating to a Verizon affiliate offering discounted Yellow Pages listings.[494] To the extent that Cavalier believes that this or any other action by Verizon violates this section 18.2, it may file a complaint or pursue other legal action to enforce its rights under this Agreement, as discussed below.[495] We also decline to adopt Cavalier's proposed second sentence of section 18.2.5, which would establish formal internal investigation and reporting requirements in the event of reports of improper customer contacts. We agree with Verizon that the establishment of a formal investigation and reporting mechanism does not appear warranted by the volume of reported violations,[496] and further find it unnecessary in light of Cavalier's rights under this Agreement. Such formal processes also could be subject to abuse, as Verizon notes.[497] We would expect each Party to have processes already in place to investigate claims of employee misconduct arising from any aspect of their employment including those related to carrying out duties under this Agreement.[498] Instead, because we adopt many of Cavalier's proposed requirements, Cavalier now is in a position to enforce those obligations as it would other provisions of this Agreement.

---

[492] *Id.* at 26-27 (Cavalier Proposed § 18.2.5).

[493] Because we adopt more limited requirements under § 18.2 than originally proposed by Cavalier, we thus reject Verizon's claim that the prohibition on employee conduct in violation of § 18.2 is overly broad due to the breadth of obligations imposed under Cavalier's proposed § 18.2. Verizon Brief at 46.

[494] Final Proposed Language at 26-27 (Cavalier Proposed § 18.2.5).

[495] *See infra* para. 157.

[496] Verizon Brief at 47-48. Cavalier provided specific evidence regarding only approximately 15 allegedly improper contacts over a five-year period. Cavalier Brief at Ex. C17-1. As discussed below, while we do not require Verizon to implement the formal investigation and reporting procedures sought by Cavalier, it may wish to use such procedures in particular cases to invoke the resulting liability limitations of § 18.2.8. *See infra* para. 157.

[497] Verizon Brief at 46-48.

[498] Indeed, it appears that Verizon does have such processes in place. *Id.* at 48.

156. Similarly, we reject Cavalier's proposed sections 18.2.6 and 18.2.7, providing for liquidated damages in the event of improper customer contacts.[499] Cavalier's proposed liquidated damages provisions are unnecessary in light of our adoption of section 18.2.8, discussed below, which will enable Cavalier to raise concerns about compliance with the requirements of sections 18.2 through the contract's dispute resolution mechanism,[500] or through other means available for enforcing the terms of this contract and seeking monetary damages for violations.[501]

157. We adopt portions of Cavalier's proposed section 18.2.8 providing that each Party may seek relief for a violation of section 18.2 through any forum of competent jurisdiction, with the modifications discussed below.[502] As Verizon concedes, Cavalier should have the ability to pursue claims in the event of significant harm caused by improper customer contacts.[503] We therefore direct that any liability of either Party under section 18.2 expressly be excluded from any liability limitation provisions of the Agreement. To conform section 18.2.8 to the language we adopt in section 18.2.5, we modify the term "improper conduct" in section 18.2.8 to reference "inappropriate professional conduct" instead. We have made a conforming modification to section 25.5 of this Agreement as well to specifically exclude section 18.2 violations from general limitation of liability provisions.[504] Cavalier's proposed section 18.2.8 also restricts the injured Party from seeking such relief for the first occurrence of a particular type of misconduct if the other Party certifies that it has investigated the matter and taken proper remedial action.[505] While we do not require the adoption of a formal investigation and reporting process, we nonetheless believe it is appropriate to permit the Parties voluntarily to undertake such actions in order to limit their liability under this provision of the Agreement. Because we do not adopt Cavalier's proposed liquidated damages provisions under section 18.2.6, we do not adopt the last sentence of Cavalier's proposed section 18.2.8, which cross-references that liquidated damages provision.

d. Arbitrator's Adopted Contract Language

158. As discussed above, the Arbitrator adopts the following language with respect to issue C17:

18.2 – Customer Contact, Coordinated Repair Calls and Misdirected Inquiries

---

[499] Final Proposed Language at 27-28 (Cavalier Proposed §§ 18.2.6 – 18.2.7).

[500] Aug. 1 Draft Agreement § 28.11.

[501] *See infra*, para. 157.

[502] Final Proposed Language at 28 (Cavalier Proposed § 18.2.8).

[503] Tr. at 216-17.

[504] *See infra* Part III.C.14 (discussing Issue C25 – Limitation of Liability).

[505] Final Proposed Language at 28 (Cavalier Proposed § 18.2.8).

18.2.1 – Each party will recognize the other party as the customer of record of all Services ordered by the other party under this Agreement. Each party shall be the single point of contact for its own Customers with regard to all services, facilities or products provided by the other party directly to that party, and other services and products which each party's Customers wish to purchase from that party or which they have purchased from that party. Communications by each party's Customers with regard to all services, facilities or products provided by the other party to that party and other services and products which each party's Customers wish to purchase from that party or which they have purchased from that party, shall be made to that party, and not to the other party. Each party shall instruct its Customers that such communications shall be directed to that party, and not to the other party.

18.2.2 – Requests by each party's Customers for information about or provision of products or services which they wish to purchase from that party, requests by that party's Customers to change, terminate, or obtain information about, assistance in using, or repair or maintenance of, products or services which they have purchased from that party, and inquiries by that party's Customers concerning that party's bills, charges for that party's products or services, and, if that party's Customers receive dial tone line service from that party, annoyance calls, shall be made by the that party's Customers to that party, and not to the other party.

18.2.3 – Cavalier and Verizon will employ the following procedures for handling misdirected calls:

18.2.3.1 – Cavalier and Verizon will educate their respective Customers as to the correct telephone numbers to call in order to access their respective repair bureaus.

18.2.3.2 – To the extent Party A is identifiable as the correct provider of service to Customers that make misdirected calls to Party B, Party B will immediately refer the Customers to the telephone number provided by Party A, or to an information source that can provide the telephone number of Party A, in a courteous manner and at no charge. In responding to misdirected calls, neither Party shall make disparaging remarks about the other Party, its services, rates, or service quality.

18.2.3.3 – Cavalier and Verizon will provide their respective contact numbers to one another on a reciprocal basis.

18.2.4 – Deleted

18.2.5 – Each party shall provide adequate training, and impose sufficiently strict codes of conduct or standards of conduct, for all of its employees and contractors to engage in appropriate professional conduct in any contact with the other party's customers. For purposes of this section 18.2.5, "appropriate professional

conduct" shall be deemed to be conduct that is in accordance with sections 18.2 of this Agreement, as well as all applicable industry standards.

18.2.6 – Deleted

18.2.7 – Deleted

18.2.8 – The provisions of section 18.2 of this Agreement shall not be construed to preclude either party from seeking relief in any forum of competent jurisdiction, except that each party shall be barred from seeking relief in any forum of competent jurisdiction in response to the first occurrence of any particular type of allegedly inappropriate professional conduct reported by one party to the other, if the alleged violation is confirmed through investigation and the investigating party certifies in good faith to the non-offending party that it has: (a) promptly investigated any report of alleged wrongdoing, and (b) taken prompt, reasonable, and appropriate remedial or disciplinary action in response to any improper conduct identified by the investigating party.

11. Issue C21/V34 (Assurance of Payment)

a. Introduction

159. Verizon's proposed section 20.6 would permit it to demand "adequate assurance of payment" from Cavalier if the latter: cannot demonstrate that it is creditworthy, fails to timely pay a bill, admits it is unable to pay its debts when due, or is the subject of a bankruptcy or similar proceeding.[506] Under Verizon's proposed language, the "assurance of payment" may take the form of a cash deposit or letter of credit equal to two months' charges for services rendered in connection with the Agreement by Verizon to Cavalier. In addition, pursuant to Verizon's proposed subsections (x) and (y), if Cavalier fails to timely pay two or more bills within a 60-day period or three or more bills in a 180-day period, Verizon may demand additional assurance of payment in the form of monthly advanced payments of estimated charges. Cavalier opposes Verizon's proposed language.[507] We adopt a modified version of Verizon's proposed language.

b. Positions of the Parties

160. Cavalier argues that Verizon's proposed section 20.6 exposes Cavalier to the risk of disproportionately high deposits and advance payment, provides Verizon with far too much latitude, and does not comport with the Commission's *Deposit Policy Statement*, which was issued after the *Virginia Arbitration Order* in another proceeding to which Verizon was a party.[508] Although, in the *Virginia Arbitration Order*, the Bureau approved language similar to

[506] *See* Final Proposed Language at 33-35 (Verizon Proposed § 20.6).

[507] Cavalier Brief at 61.

[508] Cavalier Brief at 65 (citing *Verizon Petition for Emergency Declaratory and Other Relief*, WC Docket No. 02-202, Policy Statement, 17 FCC Rcd 26884 (2002) (*Deposit Policy Statement*)).

Verizon's proposal here, Cavalier notes that AT&T apparently did not object to the assurance of payment requirements and the Commission expressly exempted WorldCom from those requirements as long as the latter's net worth exceeded $100 million, an exemption Verizon has not offered Cavalier.[509] Cavalier also claims that there are major unsupportable differences between Verizon's proposed section 20.6 and the AT&T language.[510] Cavalier notes that Verizon itself acknowledges that it has modified the AT&T language concerning "'when Verizon can exercise its remedies and what those remedies will be.'" Accordingly, Cavalier argues, Verizon's proposed language should be rejected.

161. Cavalier also argues that Verizon's proposal is inconsistent with the Commission's *Deposit Policy Statement*.[511] First, although in that Statement the Commission recommended that carriers define a "proven history of late payment" trigger for requiring a deposit to include a failure to pay more than a *de minimis* amount within a set period, Cavalier asserts that Verizon's two-month deposit provision contains neither a *de minimis* exception nor any reference to a proven history of late payment.[512] As drafted, Cavalier argues, section 20.6 would allow Verizon to demand a $5 million deposit if it only *thinks* Cavalier may be unable to pay a bill, rather than requiring Verizon to apply an objectively determined measure of financial stability.[513] It would also allow Verizon to make such a demand if Cavalier failed to pay only one of between 200 and 300 bills that Cavalier receives from Verizon each month, not all of which are timely received.[514] Indeed, although Verizon argues that its proposed language tracks the Commission's recommendations concerning late payment and advance payment, Cavalier claims that subsections (x) and (y) of Verizon's proposed section 20.6 are *additional* assurances of payment, not initial deposit obligations.[515] Cavalier argues that, if it disputed more than five percent of Verizon's charges on any two bills in a 60-day period or three bills in a 180-day period, such dispute would trigger these "additional assurance of payment" provisions of subsections (x) and (y), bringing the total "assurance of payment" that Verizon could demand to $7.5 million.[516] Further, although the Commission suggested in the *Deposit Policy Statement* that carriers bill in advance for usage-based services currently billed in arrears, Cavalier claims that it

---

[509] *Id.* at 62; Cavalier Reply Brief at 33 (citing *Virginia Arbitration Order*, 17 FCC Rcd at 27390, para. 728).

[510] *Id.* at 33 (quoting Verizon Brief at 56).

[511] Cavalier Brief at 63.

[512] *See id.* at 63-64 (citing *Deposit Policy Statement*, 17 FCC Rcd at 26887-88, para. 6).

[513] *See* Cavalier Reply Brief at 32.

[514] *See id.* (citing Tr. at 311-12.

[515] *See id.* at 37 (citing Verizon's Brief at 58).

[516] Cavalier explains that it currently pays about $2.5 million per month to Verizon. Therefore, Verizon could request $5 million under its initial deposit/letter of credit requirement, and an additional $2.5 million under the additional assurance of payment provisions set forth in subsections (x) and (y). *See* Cavalier Brief at 64 (citing Tr. at 12).

already advance pays 70-80 percent of its bills from Verizon.[517] Cavalier contends that this fact undermines Verizon's entire rationale for insisting on an assurance of payment.[518]

162. Although Verizon testified at the hearing that bill disputes are handled pursuant to an orderly process, Cavalier argues that the proposed Agreement is silent as to any such process.[519] In Cavalier's experience, Verizon unilaterally decides whether a dispute is *bona fide* and then unilaterally determines what action it will take.[520] Verizon accuses Cavalier of having a "tendency to litigate rather than pay its bills,"[521] but Cavalier explains that sometimes litigation is the only way that it can get Verizon to take its bill disputes seriously.[522] Cavalier accuses Verizon of "chaotic" billing and claims that Verizon will use "all means available to apply unilateral and unjustified payment pressures on Cavalier even when billing is inaccurate."[523]

163. Finally, although Verizon argues that the potential risk from other competitive LECs warrants the inclusion of section 20.6 in its agreement with Cavalier, Cavalier responds that each carrier is unique and Verizon's arguments about generalized risk are misplaced.[524] Moreover, Cavalier points out, the rights that would be granted to Verizon under section 20.6 are not reciprocal; as drafted, that section provides Cavalier with no protection should Verizon prove unwilling or unable to pay its bills to Cavalier.[525] According to Cavalier's testimony, these charges to Verizon currently amount to several million dollars per year.[526]

---

[517] *Id.* at 64; Cavalier Reply Brief at 37 (citing Tr. at 321). Cavalier also argues that proposed § 20.6 runs afoul of the Commission's *Deposit Policy Statement* because it bears the "potential for discrimination" and "may not be as objective as [Verizon] claim[s]." Cavalier Brief at 65 (citing *Deposit Policy Statement*, 17 FCC Rcd at 26894, para. 21).

[518] Cavalier Reply Brief at 37.

[519] *See* Cavalier Brief at 63 (citing Tr. at 313-315).

[520] *Id.* (citing Tr. at 314-15).

[521] *See* Cavalier Reply Brief at 33 (citing Verizon Brief at 56).

[522] *See id.* at 33-35.

[523] *See id.* at 38. Cavalier cites examples of billing disputes with Verizon, including a case it litigated before the United States District Court for the Eastern District of Virginia, and a very recent instance when, in response to Cavalier's request that certain bills be consolidated, Verizon allegedly (1) demanded ASRs; (2) announced it would charge Cavalier for the ASRs; and (3) warned that service disruptions to Cavalier's customers might occur in connection with the bill consolidation. Cavalier files certain court filings from litigation with Verizon in support of its argument that Verizon does not always consider Cavalier's billing disputes to be *bona fide*. *See id.* at 32-35 & n.98, Ex. C21-1-C21-5.

[524] *Id.* at 36.

[525] *Id.* at 36-37.

[526] *See* Cavalier Rebuttal Testimony of Whitt at 8-9.

164. Verizon argues that proposed Section 20.6 is nearly identical to language that the Bureau adopted in the *Virginia Arbitration Order*.[527] Verizon notes that, in that order, the Bureau acknowledged that "Verizon has a legitimate business interest in receiving assurances of payment ... from its competitive LEC customers."[528] To the extent that its proposal varies from the adopted language, Verizon claims that it either clarifies that language[529] or is supported by the Commission's *Deposit Policy Statement*.[530]

165. Verizon contends that, contrary to Cavalier's position, subsections (x) and (y) are consistent with the terms of the Commission's *Deposit Policy Statement*. First, under subsections (x) and (y), Verizon may only bill Cavalier in advance for monthly services if Cavalier misses two payments in a 60-day period or three payments in a 180-day period. Thus, as suggested by the *Deposit Policy Statement*, these subsections contain "'clear and explicit' standards for defining a 'proven history of late payment'" and "'advance billing is triggered only by concrete, objective standards ... narrowly tailored to target only those customers that pose a genuine risk of nonpayment.'"[531] Verizon also argues that these provisions protect Cavalier in conformity with the *Deposit Policy Statement* because they ensure that Verizon cannot invoke the assurance of payment provisions if: (1) bills are the subject of *bona fide* dispute;[532] (2) the

---

[527] Verizon Brief at 55-56; Verizon Reply Brief at 53 (citing *Virginia Arbitration Order*, 17 FCC Rcd at 27389-90, para. 727).

[528] *See* Verizon Brief at 57-58; Verizon Reply at 53 (quoting *Virginia Arbitration Order*, 17 FCC Rcd at 27389-90, para. 727). Concerning the agreements that resulted from the prior AT&T/Cox/WorldCom arbitration, Verizon states that, contrary to Cavalier's assertion, AT&T was not exempted from the assurance of payment provision and asserts that Cavalier neither asked for the $100 million net worth exemption set forth in the WorldCom agreement, nor contends that it would fall within this exemption. Verizon Reply Brief at 54-55. Verizon also notes that the Bureau added the net worth exemption to the WorldCom agreement "to help 'establish Verizon's right to request assurances of payment from smaller or less-stable competitive LECs that may opt into the agreement.'" Verizon Reply Brief at 55 (quoting *Virginia Arbitration Order*, 17 FCC Rcd at 27390, para. 972 [sic 728]). Moreover, the Bureau rejected WorldCom's request that the assurance of payment provision be omitted. Verizon Reply Brief at 55 (citing *Virginia Arbitration Order*, 17 FCC Rcd at 27389-90, paras. 726-27).

[529] Verizon explains that § 20.6 clarifies the language adopted in the prior Virginia Arbitration by specifying the circumstances under which it can exercise its right to request assurance of payment, and when it can draw upon the proposed letter of credit. *See* Verizon Brief at 56-57 (citing Verizon Rebuttal Testimony of Smith at 12; Tr. at 310). Verizon explains that its proposed language permits it to request a letter of credit from Cavalier equal to two months' anticipated charges, but only permits it to draw upon that letter to satisfy bills that are more than 30 days in arrears. Verizon Brief at 56-57 (citing Verizon Rebuttal Testimony of Smith at 12; Final Proposed Language at 33-35 (Verizon Proposed § 20.6)).

[530] Verizon argues that that subsections (x) and (y) to § 20.6 "were intended to be consistent with" the Commission's Policy Statement insofar as they track certain Commission recommendations as to how carriers might guard against the risk of nonpayment by connecting carriers. *See* Verizon Brief at 58-59 (citing *Deposit Policy Statement*, 17 FCC Rcd at 26887-88, para. 6).

[531] Verizon Reply Brief at 55-56 (quoting *Deposit Policy Statement*, 17 FCC Rcd at 26896, 26897, paras. 27, 29); *see* Verizon Brief at 58-59.

[532] Verizon Brief at 58; Verizon Reply Brief at 56. Although Cavalier claims that, under subsections (x) and (y) of § 20.6, if it "disputed more than 5% of Verizon charges on any two bills in 60 days, or three bills in 180 days, then (continued....)

undisputed amount due is less than five percent of the total amount billed in the relevant period;[533] or (3) Cavalier has not received the bill.[534] Verizon also claims to treat every dispute as *bona fide* and argues that Cavalier may escalate, if Verizon determines that a dispute is not *bona fide*, under section 28.9 of the Agreement.[535] Indeed, Verizon points out that section 28.9, which is not in dispute, sets forth, in precise detail, the procedures governing *bona fide* disputes.[536] Verizon also challenges Cavalier's contention that Cavalier's deposit and prepayment liabilities could total $7.5 million, if the "additional assurance of payment" provisions of subsections (x) and (y) were triggered.[537]

166. Verizon argues that Cavalier's position, which would eliminate the approved language, would subject Verizon to undue risk of nonpayment in two ways. First, due to the volatility in the industry, which has already resulted in the bankruptcy of 144 carriers, Cavalier might suddenly declare bankruptcy and thus Verizon would risk nonpayment for services already provided.[538] Second, because Cavalier has a "tendency to litigate rather than pay its bills" the risk of nonpayment is particularly high in this case.[539] Verizon argues that this risk should be placed with Cavalier and its investors, not Verizon.[540] Finally, Verizon argues that, even if Cavalier is financially stable and assurance of payment provisions are not necessary in its case, under section

(Continued from previous page)
Verizon could demand an additional $2.5 million" advance payment, Verizon says that is incorrect. Because § 20.6 explicitly excludes amounts subject to *bona fide* dispute and forbids Verizon from using any amounts subject to *bona fide* dispute to invoke the assurance of payment provisions, Verizon claims that disputed amounts would not be subject to subsections (x) and (y). *See* Verizon Reply Brief at 53 (quoting Cavalier Brief at 62), 54 (citing Verizon Rebuttal Testimony of Smith at 12; Tr. at 310).

[533] Verizon argues that this policy responds to the concern expressed in the *Deposit Policy Statement* that *de minimis* past due amounts not trigger assurance of payment provisions. Verizon Reply Brief at 56 (citing *Deposit Policy Statement*, 17 FCC Rcd at 26896, 26897, paras. 27, 29).

[534] Verizon notes that, because bills are not payable unless they are received, Cavalier's alleged concern is unfounded that Verizon will invoke the assurance of payment provision if Verizon furnishes a bill late or Cavalier does not receive a bill. *See* Verizon Reply Brief at 55 (citing Cavalier Brief at 62; Tr. at 311-12). Verizon argues this policy is consistent with the Commission's *Deposit Policy Statement*. *Id.* at 55 (citing *Deposit Policy Statement*, 17 FCC Rcd at 26897, para. 29).

[535] *See id.* at 53 (citing Tr. at 313-14).

[536] *Id.* at 54 (citing Verizon Response, Ex. C at § 28.9).

[537] *Id.* at 56-57.

[538] *See* Verizon Brief at 56-57 (citing Tr. at 316; Verizon Rebuttal Testimony of Smith at 14); *see also id.* at Ex. 6 (list of competitive LEC bankruptcy filings between July 1, 1996 and September 19, 2003).

[539] *See* Verizon Brief at 56 (citing Verizon Direct Testimony of Smith at 25; Tr. at 313).

[540] *See id.* at 57 (citing Verizon Rebuttal Testimony of Smith at 14).

252(i),[541] other carriers could opt into Cavalier's agreement in Virginia. Should such other carriers became insolvent, Verizon would be left without a payment recovery mechanism.[542]

c. Discussion

167. We adopt a portion of Verizon's proposed language with modifications.[543] As we recognized in the *Virginia Arbitration Order*, Verizon has a legitimate business interest in receiving assurances of payment, where warranted, from its competitive LEC customers, including carriers that may opt into Cavalier's interconnection agreement.[544] Nevertheless, a significant part of Verizon's proposed language is not consistent with the Commission's *Deposit Policy Statement*, which was issued by the Commission subsequent to the release of the Bureau's *Virginia Arbitration Order*.[545] To the extent that Verizon is at risk of nonpayment by its competitive LEC customers and protection may be warranted, the *Deposit Policy Statement* sets forth lawful parameters and we apply them here.[546]

168. First, we reject the portions of Verizon's proposed section 20.6 that would permit Verizon to demand "adequate assurance of payment" from Cavalier in the form of a cash deposit or letter of credit equal to two months' charges for services rendered under the Agreement by Verizon to Cavalier.[547] As Cavalier argues, Verizon's language is highly subjective.[548] Lacking

---

[541] 47 U.S.C. § 252(i).

[542] *See* Verizon Brief at 59.

[543] We note separately that Cavalier complains that, although it charges Verizon several million dollars per year, rights granted to Verizon under § 20.6 are not reciprocal. *See* Cavalier Rebuttal Testimony of Whitt at 8-9. These Cavalier-Verizon charges, however, are access charges and are not the subject of the interconnection Agreement. *See id.* Thus, they are for services provided by Cavalier to Verizon pursuant to Cavalier's FCC exchange access tariffs. *See* Aug. 1 Draft Agreement at Ex. A, Part II (interstate exchange access services provided by Cavalier to be priced in accordance with Cavalier's FCC exchange access tariff).

[544] *Virginia Arbitration Order*, 17 FCC Rcd at 27389-90, para. 727.

[545] We also note that Verizon has sought reconsideration of the Bureau's resolution of the "Assurance of Payment" issue as it related to WorldCom in the *Virginia Arbitration Order*. *See* Verizon's Petition for Clarification and Reconsideration of July 17, 2002 Memorandum Opinion and Order at 38, Docket Nos. 00-218, *et al.* (filed Aug. 16, 2002). As Cavalier suggests, AT&T did not challenge Verizon's proposed Assurance of Payment provision in that arbitration. *See* Cavalier Brief at 62.

[546] Although the *Deposit Policy Statement* concerned proposed deposit provisions for interstate services and therefore applied standards set forth in §§ 201-202 of the Act, we believe that its guidance pertains to deposit or advance payment provisions incumbent LECs might seek to impose on competitors under §§ 251-252 of the Act. We note that neither Party has argued that the *Deposit Policy Statement* is inapplicable here.

[547] *See* Final Proposed Language at 33-35 (Verizon Proposed § 20.6).

[548] *See* Cavalier Reply Brief at 32. For example, under this provision, Verizon may determine, subject only to its "reasonable judgment," whether Cavalier is "creditworthy." As Cavalier argues, rather than requiring Verizon to apply an objectively determined measure of financial stability, this language vests Verizon with broad discretion to decide when a deposit is necessary. *See id.*

any specific criteria, it is, moreover, unacceptably susceptible to discriminatory application.[549] This is the sort of vague language about which the Commission expressed misgivings in the *Deposit Policy Statement*.[550] Although we agree that some protection is appropriate from a customer with a proven history of late payment, that concern is sufficiently addressed under our revisions to subsections (x) and (y).

169. Second, we adopt a modified version of Verizon's proposed subsections (x) and (y). In the *Deposit Policy Statement*, the Commission noted that, that under existing interstate access tariffs, carriers may seek deposits of up to two months of access billing from customers with a proven history of late payment.[551] Accordingly, the Commission recommended that carriers address the risk of nonpayment by defining a proven history of late payment trigger for requiring such a deposit. Separately, the Commission recommended that carriers "[b]ill in advance for usage-based services currently billed in arrears, based on average usage over a sample period, perhaps phasing in the first advance bill over a period of several months."[552] Verizon's proposed language in subsections (x) and (y) seeks neither a deposit requirement nor to *bill* Cavalier in advance for services currently billed in arrears. In fact, as Cavalier points out, Verizon already bills in advance for approximately 70-80 percent of the services it provides to Cavalier.[553] Rather, proposed subsections (x) and (y) would allow Verizon to demand assurance of payment consisting of monthly advanced *payments* of estimated charges.[554] Although in their briefs the Parties assert that Cavalier already pays 70-80 percent of its bills from Verizon in advance,[555] we believe that is a mischaracterization. At the hearing, Cavalier's witness for this issue testified that Verizon currently *bills* Cavalier in advance for services.[556] If there is a proven history of late payment by Cavalier, it is consistent with the *Deposit Policy Statement* to permit Verizon to require one month's advance payment from Cavalier for a discrete period.[557]

---

[549] *See Deposit Policy Statement*, 17 FCC Rcd at 26894, para. 21, *cited in* Cavalier Brief at 65. Similarly, Verizon's proposed language that would permit it to demand a deposit or letter of credit, should Cavalier admit that it is unable to pay its debts when due, or become the subject of a bankruptcy or similar proceeding, is also susceptible to discriminatory application. *See Deposit Policy Statement,* 17 FCC Rcd at 26890, 26894, paras. 11, 21-22.

[550] *See Deposit Policy Statement*, 17 FCC Rcd at 26894, para. 21.

[551] *See id.* at 17 FCC Rcd at 26888-89, 26890, paras. 7, 12.

[552] *Id.* at 17 FCC Rcd at 26896, para. 26.

[553] Tr. at 321; *see also* Cavalier Direct Testimony of Whitt at 12.

[554] "Advance *billing* means, for example, that a bill is generated on January 1, due February 1, for services provided in January." Advance *payment*, which Verizon seeks under subsections (x) and (y) "means, for example, that a bill would be generated on December 1, due January 1, for services provided in January." *Deposit Policy Statement*, 17 FCC Rcd at 26888 n.26 (emphasis added).

[555] *See* Cavalier Brief at 64; Verizon Reply Brief at 56.

[556] Tr. at 321.

[557] *See Deposit Policy Statement*, 18 FCC Rcd at 26896, para. 26.

170. As noted, the Commission recommended in the *Deposit Policy Statement* that, to demonstrate entitlement to a customer deposit, carriers should, in their tariffs, define a trigger for a "'proven history of late payment' ... to include a failure to pay the undisputed amount of a monthly bill in any two of the most recent twelve months."[558] Verizon proposes language that would define a proven history of late payment as Cavalier's failure to "pay (x) two (2) or more bills (in respect of amounts not subject to a *bona fide* dispute) that Verizon renders at any time during any sixty (60) day period or (y) three (3) or more bills (in respect of amounts not subject to a *bona fide* dispute) that Verizon renders at any time during any one hundred eighty (180) day period."[559] We are concerned that, because of the large number of bills Verizon renders to Cavalier every month, the proposed language could be misinterpreted to require advance payment in circumstances not contemplated by the *Deposit Policy Statement*. Cavalier testified that Verizon renders 200-300 bills to it every month.[560] Verizon's proposed language could trigger the advance payment requirement if Cavalier failed to timely pay two individual bills within a 30-day period, as long as the total of those two individual bills exceed the *de minimis* amount. Accordingly, we revise Verizon's proposed language to define the proven history of late payment trigger as nonpayment of the total amount due (and not subject to *bona fide* dispute) under bills rendered by Verizon in either (x) two consecutive thirty-day periods; or (y) three 30-day periods within a 180-day period, when the amounts past due exceed the *de minimis* amount.

171. In the *Deposit Policy Statement*, the Commission also directed carriers to ensure that the proven history of late payment provision is not triggered unless "both the past due period and the amount of the delinquent payment are more than *de minimis*."[561] Under its proposed language, Verizon would not be entitled to request advance payment when the undisputed unpaid amount "represents less than five percent (5%) of the total amount of Verizon's bills rendered to Cavalier."[562] This addresses only the past due amount and not the past due period. With respect to the former, although Verizon defines a "*de minimis*" amount as less than five percent of the total undisputed amount due, we set the *de minimis* percentage to be ten percent or less of the total amount due because we are concerned about evidence that there have been problems in the past with Verizon's billing, including nonreceipt of bills, software problems, and apparent billing

---

[558] *Id.*

[559] Final Proposed Language at 34 (Verizon Proposed § 20.6).

[560] *See* Tr. at 311-12.

[561] *See Deposit Policy Statement*, 17 FCC Rcd at 26896, para. 26.

[562] Final Proposed Language at 34 (Verizon Proposed § 20.6). As Verizon argues, § 28.9 of the Parties' proposed agreement, which is undisputed, specifies at some length the procedures concerning the handling of billing disputes. *See* Verizon Reply at 54; *see also* Aug. 1 Draft Agreement § 28.9. Although Cavalier complains that there is no orderly process for handling billing disputes, proposed § 28.9, to which it has not objected, belies that assertion. We are concerned, however, that § 28.9.1 requires the "billed Party" to "establish that the bill was not timely received." This seems counter-intuitive in the case where the bill has not been received at all, which apparently has happened in the past. *See* Tr. at 310-12. We address this concern in our treatment of the *de minimis* amount.

inaccuracies.[563] We note that, pursuant to sections 28.9.3 and 28.9.3.1 of the Agreement, under certain circumstances, amounts subject to *bona fide* dispute are to be deposited with a third-party escrow agent.[564] Accordingly, Cavalier may also be required to set aside amounts it disputes, which provides Verizon with additional protection.

172. Finally, we are concerned that proposed section 20.6 does not specify any procedure pursuant to which Verizon may invoke its protections. It also does not specify a *de minimis* past-due period, as recommended by the *Deposit Policy Statement*. Given the Parties' past history of billing disputes, we believe additional language is required. Accordingly, we require Verizon to provide Cavalier with ten days' written notice of its intent to invoke its right to advance payment for specific past due amounts. We permit Cavalier an additional ten days from receipt of Verizon's notice to dispute any amounts Verizon contends are past due and also to identify specific amounts as the subject of a *bona fide* dispute. In that case, these disputed amounts will be subject to the *bona fide* dispute provisions set forth in section 28.9, rather than the past due provisions set forth in section 20.6. We believe these additional protections also address the concern identified in the *Deposit Policy Statement* that amounts that are only a few days past due should not be considered in invoking an advance payment or deposit obligation.[565]

d. Arbitrator's Adopted Contract Language

173. The Arbitrator adopts the following language for section 20.6:

> If Cavalier fails to timely pay more than ten percent (10%) of the total amount due (and not subject to *bona fide* dispute under section 28.9) under bills rendered by Verizon in either (x) two consecutive thirty-day periods; or (y) three thirty-day periods within a 180-day period, Verizon may invoke the protections of this

---

[563] *See* Tr. at 310-11, 312, 315-16; *cf. supra* n.562. It is unclear whether, under the prior agreement, the disputed amounts were considered exempt under a *bona fide* dispute provision. We note that Cavalier testified that past billing disputes between the Parties resulted in multimillion dollar credits for Cavalier. Tr. at 316. In light of all of the evidence, we also reject Verizon's argument that, because Cavalier has a "tendency to litigate rather than pay its bills," the risk of nonpayment by Cavalier is particularly high. Verizon Brief at 56. We also note that, although Verizon worries that Cavalier might suddenly declare bankruptcy (*see* Verizon Brief at 57), no evidence was presented that Cavalier is near bankruptcy; in fact, Verizon's witness testified that Cavalier currently is paying its bills on time. *See* Tr. at 316, 318. We note that the Commission has previously found in another context that ten percent may constitute a *de minimis* amount. *See MTS and WATS Market Structure, Amendment of Part 36 of the Commission's Rules and Establishment of a Joint Board*, CC Docket No. 78-72, Decision and Order, 4 FCC Rcd 5660 at paras. 2, 4 (1989) (interstate traffic deemed to be *de minimis* when it amounts to ten percent or less of the total traffic on a special access line).

[564] These circumstances include when Cavalier has a proven history of late payments. *See* Aug. 1 Draft Agreement §§ 28.9.3, 28.9.3.1.

[565] The last sentence of Verizon's proposed § 20.6 provides that, by demanding a deposit, letter of credit or other security, Verizon does not waive other rights it may have under the Agreement to be paid for its services or to discontinue service for nonpayment. We reject this language. To the extent that it addresses deposits and letters of credit, it concerns provisions we reject above. Further, we do not believe that § 20.6 as adopted could be read to preclude Verizon from exercising its other rights under the Agreement.

section. If there is such a failure to timely pay by Cavalier, Verizon may demand advance monthly payment of Cavalier's charges. The advance payment that Verizon may demand shall be 1/6 of Cavalier's actual undisputed billed usage during the six-month period preceding the last delinquency. Verizon shall true-up Cavalier's advance payments against actual billed charges once per calendar quarter. Verizon's right to advance payment under this section 20.6 will terminate one year from Cavalier's last delinquent payment. In order to invoke this advance pay provision, Verizon must provide Cavalier with ten days' written notice, in which it must identify specific bills and corresponding amounts that it contends have neither been timely paid nor are the subject of a *bona fide* dispute. Cavalier shall respond in writing within ten days of receipt of such notice. In the event that Cavalier asserts that specific unpaid amounts are the subject of a *bona fide* dispute, these amounts shall be subject to section 28.9 and shall not be considered past due under this section 20.6. Notice under this section shall be provided in accordance with section 28.12.

12. Issue C24 (Notice of Termination of Services for Non-Payment)

a. Introduction

174. The Parties disagree about the requirements that should apply before one Party can give the other Party a notice of a termination of service in the event of non-payment under the contract.[566] Pursuant to rules established by the Virginia Commission, when one carrier intends to terminate the service of another carrier it must first provide that carrier 60-days notice.[567] Once that notice is provided, the Virginia Commission typically requires the carrier receiving such notice to provide at least a 30-day notice to its respective customers that their service may be in jeopardy. Cavalier proposes language that would require a Party preparing to send a 60-day notice for non-payment to first obtain the permission of the Virginia Commission (after that commission had considered the validity of the billing dispute) prior to sending the termination notice.[568]

b. Positions of the Parties

175. As a protection against having to notify each of its customers of a service discontinuance as a result of Verizon's determination that an invoice dispute is not *bona fide*, Cavalier proposes that each Party must undertake the additional step of obtaining state approval

[566] The Parties also use the term "embargo" when referring to a termination of existing service or a refusal to provide new services. We will refer to both of these actions as a "termination of service."

[567] *See* 20 VA. Admin. Code § 5-423-80. This provision also requires notice to the Virginia Commission at the same time.

[568] The 60-day notice would also apply in the case of a material breach or default under the contract, however the Parties limit their discussions to cases relating to failure to pay amounts due under the contract.

prior to initiating the 60-day notice procedure.[569] According to Cavalier, Verizon's proposal gives Verizon the unilateral right to force Cavalier to give notice to its customers that it may exit the market, regardless of whether that is Cavalier's intention.[570] Cavalier asserts that its proposed language is a minor shift to prevent a drastic situation whereby Verizon could use a payment dispute to drive Cavalier out of business. Finally, Cavalier claims its proposal is not intended to require a formal evidentiary hearing before a termination notice is permitted to be sent.[571]

176. Verizon claims that its contract language reflects notification requirements for the termination of service imposed on carriers under Virginia law.[572] Verizon argues that Cavalier's proposed language goes well beyond such requirements, by requiring Verizon to obtain additional regulatory approval prior to complying with the Virginia Commission's current notice requirements.[573] Verizon insists that if Cavalier objects to the notification rules as overly burdensome, it should seek to amend those rules in the appropriate state commission forum.[574] Verizon also claims that Cavalier's proposal would encourage Cavalier not to pay its bills as Verizon would have to continue providing service during the pendency of the regulatory proceeding to determine if notice could be given.[575]

c. Discussion

177. We reject Cavalier's proposed language and adopt Verizon's language in its entirety. As an initial matter, the Bureau addressed the very same language Verizon is proposing here in the *Virginia Arbitration Order,* concluding that the language adequately balances the interests of both parties.[576] We find that the additional regulatory approval proposed by Cavalier would impose an unreasonable and unnecessary burden on Verizon when it legitimately attempts to minimize further monetary losses by giving appropriate notice and opportunity to cure in the

[569] Cavalier Direct Testimony of Whitt at 13-14; Cavalier Brief at 65-66. Cavalier refers to a prior billing dispute with Verizon where Verizon provided the 60-day notice to Cavalier; the Virginia Commission required Cavalier to provide notice to each of its customers; and Cavalier ended up with a significantly smaller customer base as a result of its customers' uncertainty.

[570] Cavalier Arbitration Petition at 23.

[571] Cavalier Direct Testimony of Whitt at 13-14.

[572] Verizon Testimony of Smith at 23; *see also* Verizon Answer/Response at Ex. A; Verizon Brief at 60.

[573] Verizon Brief at 60.

[574] Verizon contends that the notice requirement is imposed upon Cavalier by Virginia law, not any provision of Verizon's proposed language. Verizon Direct Testimony of Smith; Verizon Brief at 61-62.

[575] Verizon Direct Testimony of Smith at 25-26; Verizon Rebuttal Testimony of Smith at 16-17; Tr. at 313; Verizon Brief at 61. Verizon maintains that Cavalier already may initiate a proceeding to attempt to prevent any service termination it believes is unwarranted. Verizon Direct Testimony of Smith at 23-24; Verizon Brief at 64.

[576] *See Virginia Arbitration Order,* 17 FCC Rcd at 27392, para. 732.

event of non-payment.[577] Other provisions of the Agreement provide Cavalier a detailed process for disputing billed charges it deems improperly imposed.[578] When this process is followed, these *bona fide* disputes are not subject to termination notifications until resolved through the dispute resolution process also provided in the Agreement.[579] In such a case, the Parties will have had several months of dispute resolution in which Cavalier will have had an opportunity to present its case prior to the issuance of a termination notice. On the other hand, charges that are not disputed and remain unpaid may justify termination of service, and the language proposed by Verizon provides a sufficient notice period and an opportunity to cure.[580]

178. In light of the procedural safeguards and dispute resolution processes that are available prior to terminating service after notice, the additional protection that Cavalier seeks to impose is unwarranted.[581] While, in theory, a notice of termination could be used for anticompetitive purposes, we find that other provisions of the interconnection agreement with which Verizon is obligated to comply serve to prevent an abuse of the process for sending a termination of service notice for non-payment.[582] Should Cavalier believe that Verizon is sending a termination notice for a purpose other than collecting legitimate past due billings, Cavalier may always petition the Virginia Commission for relief.[583] Finally, to the extent Cavalier believes the Virginia Commission's customer notification requirements create an undue competitive burden, those issues are more appropriately addressed in the context of the Virginia Commission's proceeding adopting those notification requirements.

d. Arbitrator's Adopted Contract Language

179. Based on the conclusions above, the Arbitrator adopts the following language.

---

[577] The current 60-day notice process allows a 30 day opportunity to cure before Cavalier would be required to notify its customers. Unpaid charges that were previously *bona fide* disputes but have been settled in Verizon's favor would also appropriately be cause for embargo or termination of service.

[578] Aug. 1 Draft Agreement § 28.9.

[579] *Id.*

[580] *See Virginia Arbitration Order,* 17 FCC Rcd at 27392, para. 732 (granting Verizon's request to terminate service when a competitive LEC withholds payment for service without a *bona fide* reason). The current 60-day notice process allows a 30-day opportunity to cure before Cavalier would be required to notify its customers. Unpaid charges that were previously *bona fide* disputes but have been settled in Verizon's favor would also appropriately be cause for embargo or termination of service.

[581] These dispute resolution procedures are set forth in § 28.9 of the Agreement. *See* Aug. 1 Draft Agreement § 28.9.

[582] Aug. 1 Draft Agreement § 28.9

[583] Verizon points out that according to Cavalier's own testimony, such a petition was successful in Delaware. *See* Verizon Rebuttal Testimony of Smith at 16; Cavalier Direct Testimony of Whitt at 14-15.

22.4 – If either Party defaults in the payment of any amount due hereunder, except for amounts subject to a *bona fide* dispute pursuant to Section 28.9 hereof with respect to which the disputing Party has complied with the requirements of Section 28.9 in its entirety or if either Party materially violates any other material provision of this Agreement, and such default or violation shall continue for sixty (60) days after written notice thereof, the other Party may terminate this Agreement or suspend the provision of any or all services hereunder by providing written notice to the defaulting Party. At least twenty-five (25) days prior to the effective date of such termination or suspension, the other Party must provide the defaulting Party and the appropriate federal and/or state regulatory bodies with written notice of its intention to terminate the Agreement or suspend service if the default is not cured. Notice shall be posted by overnight mail, return receipt requested. If the defaulting Party cures the default or violation within the sixty (60) day period, the other Party shall not terminate the Agreement or suspend service provided hereunder but shall be entitled to recover all reasonable costs, if any, incurred by it in connection with the default or violation, including, without limitation, costs incurred to prepare for the termination of the Agreement or the suspension of service provided hereunder.

13. Issue C25 (Limitations of Liability)

a. Introduction

180. The Parties disagree about the appropriate exclusions to the general limitation of liability provisions contained in the agreement. Cavalier proposes to add an additional exclusion that would entitle it to relief where Verizon violates any law governing communications.[584] Verizon asserts that including this provision is commercially unreasonable and would effectively nullify the limitations on liability to which Cavalier has already agreed.[585]

b. Positions of the Parties

181. Cavalier argues that its rights to damages under the Act and related state and federal rules and regulations should not be eliminated at Verizon's insistence.[586] Cavalier claims that eliminating these rights through the limitation of liability provisions contained in section 25 of the agreement would diminish Verizon's incentive to perform its obligations under the agreement.[587] Cavalier acknowledges the existence of the Virginia Commission's Performance Assurance Plan (PAP), but claims it is too complex and subject to interpretation to provide full

[584] Cavalier Brief at 67.

[585] Verizon Brief at 65.

[586] Cavalier Arbitration Petition at 23; Cavalier Brief at 67; Cavalier Reply Brief at 43.

[587] Cavalier Brief at 68; Cavalier Reply Brief at 42.

monetary damages.[588] Cavalier asserts that the PAP provides no compensation for serious legal violations.[589]

182. Verizon argues that Cavalier's proposal effectively guts the limitation of liability provision of the agreement by adding an exclusion that is so broad as to virtually eliminate any limiting effect.[590] Verizon asserts that the Bureau previously rejected a similar request from WorldCom in the *Virginia Arbitration Order*.[591] According to Verizon, such a provision would give Cavalier recourse any time Verizon failed to provide perfect service to Cavalier.[592] Verizon contends that the Act only requires it to provide service to Cavalier at parity with its own customers, not perfect service,[593] and the PAP adequately addresses Cavalier's concerns.[594] Verizon points out that Cavalier's proposed language is also inconsistent with provisions in all six of Verizon's Virginia tariffs, as well as its tariff on file at the Commission.[595] Finally, Verizon states that it has agreed to three additional exclusions to address Cavalier's concerns that the PAP does not redress serious violations of law.[596]

c. Discussion

183. We reject Cavalier's proposed section 25.5.10 language. We agree with Verizon that this language is commercially unreasonable and would eviscerate any limitations on liability Cavalier agrees to elsewhere in the agreement. While Cavalier claims it is a limited exception to the general limitations on liability, we find that the breadth of the language could conceivably entitle Cavalier to seek redress under virtually any law or regulation that could arguably be related to telecommunications service. Moreover, the Commission previously found that the Virginia Commission's PAP is an appropriate means for ensuring performance and providing

---

[588] Cavalier Brief at 68; Cavalier Reply Brief at 42; *see also* Cavalier Rebuttal Testimony of Whitt at 11. Cavalier claims this is especially true given that the Virginia Commission recently tilted any Verizon payments under that plan strongly away from UNE-L providers and towards UNE-providers. Cavalier Direct Testimony of Whitt at 15.

[589] Cavalier Rebuttal Testimony of Whitt at 11.

[590] Verizon Brief at 65; Verizon Reply Brief at 60.

[591] Verizon Brief at 65.

[592] *Id.* at 66-67.

[593] Verizon Direct Testimony of Romano at 4.

[594] Verizon Rebuttal Testimony of Agro at 1-3; Verizon Brief at 65-66; Verizon Reply Brief at 60-61.

[595] Verizon Direct Testimony of Romano at 2-4; Verizon Brief at 65; Verizon Reply Brief at 61-62. Cavalier's language would allow Cavalier to hold Verizon financially responsible including, without limitation, for lost profits and/or consequential damages.

[596] Verizon Rebuttal Testimony of Romano at 2. Verizon has agreed to exclude defamation, misleading or inaccurate advertising, and violation of the antitrust laws from the limitations on liability.

financial remedies related to Verizon's obligations under the Act.[597] Finally, Verizon's willingness to include the additional exclusions identified in the contract language we adopt below, as well as the additional exclusion we discussed in Issue C17 above, significantly mitigates any concerns Cavalier may have that Verizon could engage in harmful conduct for which Cavalier is unable to seek redress.[598]

d. Arbitrator's Adopted Contract Language

184. The Arbitrator adopts the following language:

25.5.1 under Sections 18.2, Customer Contact, Coordinated Repair Calls and Misdirected Inquiries; 24, Indemnification; or 28.7, Taxes.

25.5.7 for a claim of defamation;

25.5.8 for a claim of misleading or inaccurate advertising; or

25.5.9 for a claim of violation of antitrust laws (including a claim for trebled or multiple damages under such antitrust laws).

14. Issue C27 (Cavalier Charges for Truck Rolls and Winback-Related Functions)

a. Introduction

185. Cavalier proposes certain language in the pricing schedule that would permit it to charge Verizon for technician dispatches, or "truck rolls," that are required when Verizon claims to have activated a new loop to a Cavalier customer but, in fact, delivers an inactive line.[599] Separately, Cavalier proposes to charge Verizon for activities that it must perform when a Cavalier customer, who is served over loops provided to Cavalier by Verizon, switches to Verizon, which Cavalier terms a "winback."[600] Cavalier proposes to set the charges for these activities at whatever Verizon charges it for similar services. Verizon opposes these Cavalier charges.[601]

---

[597] *Verizon Virginia Section 271 Order,* 17 FCC Rcd at 21980-90, para. 198; *see also Virginia Arbitration Order,* 17 FCC Rcd at 27048-49, paras. 17-18; Verizon Rebuttal Testimony of Agro at 3.

[598] *See supra* para. 158 (resolving Issue C17 in part by permitting either Party to seek relief in any forum of competent jurisdiction for alleged inappropriate professional conduct by the other Party under § 18.2 of the agreement). We include a modification to § 25.5.1 to expressly reference the exclusion we adopt to resolve Issue C17. We note that the specific exclusions enumerated in § 25.5 are in addition to any other express exclusions that may appear elsewhere in the agreement.

[599] Final Proposed Language at 37 (Cavalier Proposed Ex. A(2), Part IV).

[600] *Id.* at 36-37.

[601] Verizon Reply Brief at 62.

b. Jurisdiction

(i) Positions of the Parties

186. Cavalier argues that this Commission has jurisdiction to require Verizon to reimburse Cavalier for certain functions it performs. In response to Verizon's argument, described at greater length below, that, in the *Virginia Arbitration Order*, the Bureau found that the Commission lacks jurisdiction over competitive LEC charges, Cavalier asserts that the *Virginia Arbitration Order* does not support Verizon's claim. Instead, Cavalier argues, the Bureau declined in that order to impose price caps on competitive LEC rates, and determined that challenges by Verizon to the justness and reasonableness of such rates should be brought to the Virginia Commission.[602] Cavalier argues that, since it bases its proposed winback and truck roll rates on Verizon's own charges in Virginia, Verizon would be hard-pressed to demonstrate that Cavalier's charges are unjust or unreasonable.[603] Cavalier also notes that although it did attempt to file its proposed charges in a tariff, the Virginia Commission, in a letter described below, rejected its filing and told Cavalier that such charges belonged in its interconnection agreement.[604]

187. Verizon claims that the Bureau acknowledged in the *Virginia Arbitration Order* that it lacks jurisdiction over intrastate rates charged by competitive LECs to incumbents.[605] In that order, the Bureau found:

> [T]he Bureau, acting as the Virginia Commission for purposes of this proceeding, is authorized by section 252 to determine just and reasonable rates to be charged by Verizon, not petitioners. As Cox points out, the Commission has ruled that it would be *inconsistent with the Act* for a state commission to impose section 251(c) obligations on competitive LECs.[606]

---

[602] Cavalier Reply Brief at 43-44 (citing *Virginia Arbitration Order*, 17 FCC Rcd at 27324-25, paras. 588-89). Cavalier also cites to §§ 20.2 and 20.5 of the Parties' Agreement as support for its argument that interconnection agreements may contain competitive LEC rates. Cavalier Reply Brief at 43 n.135. These sections govern the procedures for changes and challenges to the rates of both Parties. *See* Cavalier Arbitration Petition, Ex. B at §§ 20.2, 20.5.

[603] Cavalier Reply Brief at 45.

[604] Cavalier Brief at 78 (citing Cavalier Direct Testimony of Clift at 20 & Ex. MC-11; Tr. at 619-20). Cavalier also argues that Verizon should be estopped from challenging the Bureau's jurisdiction to arbitrate this issue because the Parties previously agreed to arbitrate the issues of truck rolls and winbacks. *See id.* at 78-79.

[605] Verizon Brief at 68-69 (citing *Virginia Arbitration Order*, 17 FCC Rcd at 27324-25, paras. 588-89); Verizon Reply Brief at 62. Verizon also disputes as "demonstrably wrong" Cavalier's contention that Verizon consented to jurisdiction and thus should be estopped from raising jurisdictional defenses. Verizon Reply Brief at 64. Verizon cites to its Answer/Response, Direct and Rebuttal Testimony and to its Brief in which it raised this defense. Verizon Reply Brief at 64. It further argues that Cavalier's waiver and estoppel theories are without legal merit. *See id.* at 65 & nn. 7-9 (citations omitted).

[606] Verizon Reply Brief at 64 (quoting *Virginia Arbitration Order*, 17 FCC Rcd at 27324-25, para. 588).

188. Verizon argues that this jurisdictional ruling cannot be trumped by a Virginia Commission letter, which Cavalier offered into evidence, that rejected Cavalier's proposed tariff and directed Cavalier to seek compensation for the services at issue through an interconnection agreement.[607] Verizon disputes Cavalier's claim that if the Bureau does not permit these charges, Cavalier is without a forum to present its proposed charges for review. Instead, Verizon argues, the letter indicates on its face that Cavalier's underlying tariff filing was too vague for the Commission to understand.[608] Verizon also notes that, although the Parties have agreed to certain Cavalier charges in their Agreement, these are reciprocal compensation rates, which the Commission's rules prescribe, rates upon which the Parties have agreed, or rates for which the Virginia Commission has approved a tariff.[609]

(ii) Discussion

189. Verizon argues that, in the *Virginia Arbitration Order*, the Bureau found that the Commission lacked jurisdiction over competitive LEC charges. We disagree and assert jurisdiction to decide this issue. In the *Virginia Arbitration Order*, the Bureau declined to make a determination of a just and reasonable competitive LEC rate under Virginia law, and instead noted that, in that proceeding, it applied federal law.[610] We have jurisdiction to do the same here. To the extent that Cavalier has demonstrated that it performs tasks comparable to those performed by Verizon, it would violate section 251(c)(2)(D) to allow Verizon to assess a charge on Cavalier but disallow a comparable charge by Cavalier on Verizon.[611]

---

[607] *Id.*; *see* Cavalier Direct Testimony of Clift at Ex. MC-11.

[608] *Id.* at 63 (citing Cavalier Brief at 78).

[609] Verizon Brief at 69-70.

[610] In the Virginia Arbitration, Verizon asked the Bureau, under Issue I9, to cap the prices of certain services provided to Verizon by the competitive LECs at the rates that Verizon charged for comparable services. Verizon argued that permitting the petitioners to set their own rates would be unjust and unreasonable, in violation of Virginia law. *See Virginia Arbitration Order*, 17 FCC Rcd at 27324, para. 587. The Bureau found that, to the extent that it believed that petitioners' rates for those services, which were the subject of tariffs on file with the Virginia Commission, did not comply with Virginia law, Verizon could challenge those rates before the Virginia Commission. *See Virginia Arbitration Order*, 17 FCC Rcd at 27325, para. 589. The Bureau also noted that, with the exception of reciprocal compensation, § 252's pricing provisions establish standards for setting "just and reasonable" rates under § 251(c), which applies exclusively to incumbent LECs. *Id.* at 27324, para. 588. The Bureau found that it would be inconsistent with the Act for it to impose § 251(c) obligations on competitive LECs. *See id.*

[611] *See Local Competition First Report and Order*, 11 FCC Rcd at 15612, para. 218 (terms and conditions of interconnection for competitive LEC should be no less favorable than for incumbent). We also reject Cavalier's argument that Verizon should be estopped from raising a jurisdictional defense or deemed to have waived it. *See* Cavalier Brief at 78-79. Cavalier argues that Verizon previously agreed, in the context of a settlement agreement, to compensate Cavalier for parallel winback functions, only to claim after the agreement had been executed that Cavalier does not perform comparable functions. *See id.* at 72, 78-79; *see also* Tr. at 631. Assuming *arguendo* the veracity of this assertion, this is not the proper forum to challenge Verizon's performance of its settlement agreement. Rather, Cavalier should pursue enforcement of it settlement contract with Verizon under the dispute resolution provisions of that agreement. As Verizon argues, it raised its jurisdictional argument throughout its filings (continued....)

c. Truck Rolls

Positions of the Parties

190. According to Cavalier, approximately 11.66 percent of new loop installations[612] by Verizon require a truck roll by Cavalier.[613] These truck rolls occur when Verizon gives inaccurate information to Cavalier, indicating that the new loop is operational although, in fact, the customer lacks dialtone. Cavalier must then perform a truck roll to attempt to isolate the reason for lack of service.[614] Cavalier proposes to assess a nonrecurring Premises Visit Fee of $47.55 for these truck rolls.[615] In some instances, additional truck rolls and "vendor meets" may be necessary. Cavalier also proposes to assess a $47.55 nonrecurring charge for additional truck rolls and a charge of $50 for the first half hour and an additional $16 per quarter hour when Verizon is tardy or does not appear for the scheduled vendor meet.[616] Cavalier sets these "reimbursement" charges at whatever Verizon charges Cavalier for similar services.[617] Cavalier points out that Verizon charges Cavalier for a premises visit when Verizon installs a new loop.[618] Similarly, when it dispatches a technician, Verizon imposes a charge on Cavalier, even if Cavalier arrives late or not at all.[619] Verizon also apparently charges Cavalier for opening a maintenance trouble ticket if a new loop is not working.[620] Verizon's missed appointment charges are listed in the pricing schedule to the Parties' Interconnection Agreement.[621]

(Continued from previous page)
in this proceeding. *See* Verizon Reply Brief at 64. In any case, it is not clear that an estoppel or waiver argument could vest jurisdiction in this Bureau if it did not otherwise exist. *See id.* at 65.

[612] Although Cavalier would impose a premises visit for both new loops and hot cuts, *see* Final Proposed Language at 37 (Cavalier Proposed Ex. A(2), Part IV), the witness testified that this problem occurs with new loops rather than hot cuts. *See* Tr. at 647. It is typically a problem with POTS services. Tr. at 631. According to Cavalier's witness, new loop installations constitute approximately 50% of Cavalier's new customer installations. *Id.* at 647. Accordingly, approximately 5.83% of the time when Verizon delivers a loop to Cavalier, Cavalier must initiate a truck roll. *See id.*

[613] *See* Tr. at 646-47.

[614] Cavalier Brief at 72-74 (citing Cavalier Direct Testimony of Webb at 5, 6, 8 & Exs. AW-1-4; Tr. at 633-34); *see also* Cavalier Reply Brief at 45. Cavalier also notes that no record evidence supports Verizon's Brief "musings" as to why Cavalier might be unable to reach a customer. *Id.* (citing Verizon Brief at 70); *see also* Verizon Reply Brief at 66.

[615] *See* Final Proposed Language at 37 (Cavalier Proposed Ex. A(2), Part IV).

[616] *See* Cavalier Brief at 74.

[617] *See id.* at 74-75 (citing Cavalier Direct Testimony of Clift at 23; Tr. at 616-17).

[618] *Id.* at 73 (citing Tr. at 584, 589).

[619] *Id.* (citing Tr. at 585-88).

[620] *See* Tr. at 635.

[621] *Id.* at 587-88.

191. In response to Verizon's argument that it is already subject to performance standards in Virginia that carry substantial monetary penalties for nonperformance under the Virginia PAP, Cavalier argues that the PAP metrics cited by Verizon contain data irrelevant to new loop installations, which mask the new loop installation problem that Cavalier is experiencing, and skew the results in favor of Verizon.[622] Cavalier also asserts that an audit by the New Jersey Commission has confirmed that Verizon's PAP data are inaccurate and unreliable, which is to be expected because Verizon's performance data is self-reported.[623] In any case, Cavalier argues, the PAP was never intended to be a compensation mechanism for an individual competitive LEC but was designed to prevent backsliding after a carrier has been granted authority to provide in-region long distance under section 271.[624] Finally, Cavalier notes that, notwithstanding thousands of Cavalier truck rolls caused by undelivered or otherwise failed new loops, Verizon has never made a single PAP payment to Cavalier based upon loop installation failures and missed appointments.[625] Thus, the PAP utterly fails to compensate Cavalier for its truck rolls.[626]

192. Verizon argues that, even if the Bureau does have jurisdiction to consider Cavalier's proposed charges, it should reject them outright. With respect to truck rolls, Verizon argues that there are many reasons, which are beyond the control of Verizon, why Cavalier might be unable to reach its customer immediately after a loop is installed.[627] Verizon also contends that Cavalier could reduce its truck rolls by participating in Verizon's Cooperative Testing program for digital (or xDSL-capable) loops, which cost the same as analog loops.[628] Verizon states that if cooperative testing shows that the service is not working, Verizon will not charge Cavalier to resolve the problem.[629]

193. Verizon argues that it is subject to performance standards in Virginia under the Virginia PAP, which contains a comprehensive set of performance measurements for timeliness, reliability, and quality of service, as well as self-executing remedies that carry substantial

629 *Id.* (citing Verizon Rebuttal Testimony of Albert Panel at 21-22); *see also* Verizon Reply Brief at 66.

monetary penalties for nonperformance.[630] Thus, Verizon claims, Cavalier is wrong in its assertion that Verizon suffers no consequence by failing to deliver dial tone or keep its appointments. Verizon notes that section 26.1 of the proposed Agreement specifically incorporates Verizon's responsibilities under the PAP.[631] Verizon points out that the PAP has been approved by both the Virginia Commission and the FCC in the context of its approval of Verizon's in-region long distance application for Virginia.[632] Although Cavalier claims that the PAP does not cover missed appointments and loops that were not properly delivered, Verizon argues the contrary is true; the PAP was recently modified to hold Verizon financially accountable for the very performance lapses about which Cavalier complains.[633] Verizon points out that Cavalier also can petition the Virginia Commission to change the benchmark measurements set forth in the PAP. Verizon also states that the Virginia PAP contains carrier-specific remedies which should assure carrier-specific performance for Cavalier[634] and claims that the reason that Cavalier has not received payments under the PAP is because Verizon has provided Cavalier with better service than Verizon provides to its own retail customers in Virginia.[635] Moreover, Verizon argues, were the Bureau to adopt special measures and penalties for Cavalier, other competitive LECs would also demand special treatment, whereas the PAP avoids nondiscriminatory treatment of competitive LECs.[636] Although Verizon concedes that the PAP does not provide dollar-for-dollar reimbursement for Cavalier truck rolls, it argues that the Act does not require such dollar-for-dollar reimbursement and that the PAP strikes the right balance by requiring Verizon to pay Cavalier only when it provides Cavalier with worse service than it provides itself.[637]

194. Verizon also argues that Cavalier's proposed truck roll charges, which, in effect, seek "cost-free maintenance," are ill-advised as a policy matter because Verizon should not have to subsidize Cavalier's maintenance costs. Verizon contends that Cavalier's proposal, which contains no limiting language, provides no incentive for Cavalier to reduce its truck rolls; rather, it provides Cavalier with the "perverse incentive" to increase its truck rolls at the expense of

Verizon's rate-payers.[638] Verizon also points out that Cavalier has not submitted any cost studies to support its proposed charges.[639]

(ii) Discussion

195. Cavalier has demonstrated that Verizon fails to provide a working loop to Cavalier in more than 11 percent of new loop installations, which we agree is unacceptable.[640] Rather than impose truck roll charges on Verizon, we believe it is more sensible to adopt a variation of the solution proposed by Verizon by requiring it to participate in additional up-front testing at no charge to Cavalier.[641] Verizon states that Cavalier could "reduce its truck rolls by participating in Verizon's Cooperative Testing program for digital (or xDSL-capable) loops."[642] Also, according to Verizon, digital loops cost the same as analog loops.[643] Accordingly, for new loop installations, Verizon may either: (1) develop a cooperative testing program for POTS service, which shall perform the same functions as its cooperative testing program for digital loops, for which it may not charge Cavalier;[644] or (2) provide digital loops and cooperative testing to Cavalier and charge Cavalier no more than it would charge for analog loops. Should Verizon elect the latter alternative, it may not impose additional or different charges for the provision of digital loops than for the provision of analog loops.

(iii) Arbitrator's Adopted Contract Language

196. The Arbitrator adopts the following insert to Section 11.14 Cooperative Testing:

> 11.14 Cooperative Testing
>
> 11.14.1 Pursuant to methods and procedures developed as part of the DSL Provisioning Process in New York, at Cavalier's request, Cavalier and Verizon shall perform cooperative testing of DSL-capable Loops. Further, for all Cavalier new loop installations, Verizon shall either (1) provide a

---

[638] *Id.* at 69.

[639] Verizon Brief at 70.

[640] *See* Tr. at 647. Although Verizon suggests that many reasons beyond Verizon's control could cause Cavalier to be unable to reach its customer, *see* Verizon Brief at 70; Verizon Reply Brief at 66, we concur with Cavalier that Verizon did not present evidence to support this contention. *See* Cavalier Reply Brief at 45.

[641] Accordingly, we do not address the Parties' debate as to whether the Virginia PAP adequately compensates Cavalier for Verizon's performance lapses.

[642] Verizon Brief at 70-71; Verizon Reply Brief at 66 (citing Verizon Rebuttal Testimony of Albert Panel at 21-22).

[643] Verizon Brief at 70-71; Verizon Reply Brief at 66.

[644] We note that, in the *Virginia Cost Issues Arbitration Order*, we disallowed any charge for cooperative testing. We found there that competitors should not have to pay an additional charge when Verizon does not meet its obligation to provide a functioning loop. *See Virginia Cost Issues Arbitration Order*, 18 FCC Rcd at 17969, para. 632. That reasoning applies here with equal force.

cooperative testing program for analog service that shall perform the same functions as its cooperative testing program for digital loops, or (2) provide digital loops and cooperative testing for all Cavalier new loop installations at the identical recurring and non-recurring rates that apply to its provision of analog loops. If Verizon selects the foregoing option (2), Verizon may not impose additional or different charges for the provision of digital loops than for the provision of analog loops. Verizon may not charge Cavalier for its cooperative testing programs.

197. Insert at beginning of Exhibit A, Part VI. Unbundled Loops:

Consistent with Section 11.14, Verizon must either (1) provide a cooperative testing program for analog loops or (2) provide digital loops and cooperative testing for all Cavalier new loop installations at the identical recurring and non-recurring rates that apply to its provision of analog loops. If Verizon selects the foregoing option (2), Verizon may not impose additional or different charges for the provision of digital loops than for the provision of analog loops. Verizon may not charge Cavalier for its cooperative testing programs.

d. Winbacks

(i) Positions of the Parties

198. When Verizon delivers a loop to Cavalier in Virginia, it charges Cavalier $13.49 for installing the new loop, which is comprised of a $10.81 Service Order Connect charge and a $2.68 Installation charge.[645] Cavalier argues that when it turns a customer over to Verizon, Verizon should compensate it for performing corresponding and comparable "winback" functions to those for which Verizon charges it under the $13.49 charge. Cavalier bases its proposed winback charge upon Verizon's $13.49 loop installation charge, which, it argues, is a "reasonable and measured proposal."[646]

199. Cavalier argues that when it turns a customer over to Verizon, it performs almost the same services for Verizon as when Verizon turns a customer over to it, but it receives no compensation for these services.[647] Cavalier points out that, under cross-examination, the Verizon witness could not confirm what individual functions were included in the Service Order

[645] Verizon Reply Brief at 70; *see also* Verizon Answer/Response, Ex. C, Ex. A at Part VI, Unbundled Loops, 2-Wire Analog Loops (POTS Loops). We note that there is some discrepancy as to whether Verizon's installation charge is $2.88 or $2.68. $2.68 appears to be the correct number. *See* Verizon Answer/Response, Ex. C, Ex. A at Part VI; Tr. at 617-18.

[646] Cavalier Brief at 77 (citing Cavalier Direct Testimony of Clift at 23; Tr. at 612-13 (additional citations omitted)).

[647] *Id.* at 75.

Connect and Installation charges and was unfamiliar with any cost study that supported her assertion that Verizon would perform these functions free of charge.[648] Cavalier also notes that the Verizon witness did confirm that Cavalier also pays a disconnect charge when a Cavalier customer served via a Verizon-provided loop leaves Cavalier for Verizon.[649]

200. With respect to winbacks, Verizon contends that, when a customer moves from Cavalier to Verizon, Cavalier does not provide Verizon with the facility for the customer's line; instead, this is a Verizon facility.[650] Thus, when Verizon assesses service order processing and installation charges on Cavalier, it is providing Cavalier with a new UNE loop facility.[651] But, Verizon argues, it makes no sense to allow Cavalier to charge Verizon for what the latter characterizes as a "UNE installation charge," which is what Cavalier characterizes a "winback charge."[652] Verizon admits that both Parties perform "virtually the same functions" when either carrier moves a customer to the other.[653] Nevertheless, Verizon denies that it charges Cavalier for any of these functions.[654] Instead, Verizon contends, the $13.49 charge is for installation of a UNE loop, which, it asserts, is a service that Cavalier does not provide to Verizon.[655]

201. Moreover, Verizon argues, the "winback" services for which Cavalier proposes to charge Verizon, such as deleting switch translations, porting a number, and discontinuing customer billing are retail functions properly charged to an end-user.[656] Verizon says it does not charge Cavalier for these retail functions.[657] Verizon claims that Cavalier would have to perform

---

[648] *Id.* at 77 (citing Tr. at 642-43).

[649] Verizon charges Cavalier $5.98 for disconnecting the customer. This is made up of a $4.91 Service Order Disconnect charge and a $1.07 Installation Disconnect charge. Verizon Answer/Response, Ex. C, Ex. A at Part VI; *see also* Tr. at 597-98.

[650] Verizon Reply Brief at 70.

[651] Verizon Brief at 74. Verizon explains that the associated nonrecurring charge is intended to cover its one-time costs for provisioning the loop, such as dispatching a technician to rearrange facilities in order to make a loop available to Cavalier's customer, or to cross-connect the loop to Cavalier's collocation arrangement. *Id.*

[652] *See* Verizon Reply Brief at 70.

[654] *Id.* at 70 (citing Cavalier Brief at 76; Cavalier Direct Testimony of Ferrio at 3).

[655] Verizon Brief at 74-75; Verizon Reply Brief at 70 (citing Cavalier Direct Testimony of Ferrio at 3).

[656] Verizon Reply Brief at 70.

[657] *Id.* at 72. In fact, Verizon denies charging Cavalier for any of the following functions, which Cavalier asserts are performed during a "winback": (1) Initiate Service Order; (2) Provide CSR upon request; (3) Service Order Confirmation; (4) Delete Switch Translations; (5) Install intercept as applicable; (6) Jump wire from Frame to Collo; (7) Update SOA; (8) Coordinate LNP; (9) Test/Trouble Shoot; (9) Expedite. Verizon Brief at 74 (citing Verizon Rebuttal Testimony of Albert Panel at 23).

these functions if its customer switched to a third carrier or discontinued its telephone service altogether.[658]

202. Further, Verizon contends, Cavalier "plucks" the $13.49 charge from Verizon's pricing schedule and attempts to apply it to Verizon but produces no evidence that its costs are the same as Verizon's; Verizon argues that the costs are not the same.[659] Verizon also attacks Cavalier's belated argument that the Verizon disconnect charge is a winback charge.[660] Verizon asserts that the disconnect charge was approved by the Virginia Commission to compensate Verizon for disconnecting a loop; it is not a winback charge.[661] Verizon assesses a disconnect charge whenever Cavalier stops providing service to a customer over a loop, not just when Cavalier returns a customer to Verizon.[662] Since Cavalier does not provide UNE loops to Verizon, it obviously does not disconnect them, so no such charge is appropriate. Moreover, Verizon argues, the $13.49 charge that Cavalier seeks to recover for winbacks is based upon Verizon's charge for installation of a UNE, not its disconnection, so the Bureau should not rely upon the disconnect charge.[663] Finally, Verizon also contends that allowing Cavalier to recover a "winback" charge from Verizon would be unduly discriminatory because no other carrier in Virginia compensates Cavalier for such a processing charge.[664] Accordingly, should Cavalier wish to recover this kind of a charge, it should be contained in a tariff applicable to all similarly situated carriers.

(ii) Discussion

203. We will permit Cavalier to impose a winback charge on Verizon for the tasks it performs when it migrates a customer to Verizon. Cavalier argues that Verizon's $10.81 Service Order Connect and $2.68 Installation charges covered tasks performed by Verizon that correspond to winback functions Cavalier performs for Verizon when a Cavalier customer served by UNE loops migrates to Verizon.[665] In rebuttal, Verizon's witness, who is a Senior Product Manager for xDSL Products and Line Sharing, testified that Verizon "does not charge Cavalier for any of" the activities specified by Cavalier, specifically initiating a service order, provisioning

the Customer Service Record (CSR), confirming the service order, deleting switch translations, installing an intercept, installing a jump wire from the frame to the collocation, updating the Service Order Administration (SOA) database, testing/trouble shooting, or expediting a service order.[666] Under cross-examination by Cavalier's counsel and Commission staff, however, the witness admitted that Verizon does perform many of these functions although she was not familiar with all of them.[667] She also admitted that she did not know whether costs associated with particular functions were recovered through the Service Order Connect and Installation charges,[668] or whether some costs "were buried in OSS-type costs or not."[669] Although the Verizon witness testified originally that Verizon did not charge for "winbacks" it became clear under examination that she meant that Verizon does not include a service called "winbacks" in the charges it lists on its proposed Schedule A, rather than meaning that Verizon does not recover the costs of some or all of the services identified by Cavalier under its proposed winback charge.[670]

204. Verizon argues that it is inappropriate to allow Cavalier to impose a winback charge on Verizon because, when Cavalier turns the loop over to Verizon, it does not provide the same functionality as Verizon does when it performs the loop installation provisioning tasks that are the basis for the Service Order Connect and Installation charges. We disagree. The Verizon witness testified that Cavalier is responsible for effecting certain key functions for the benefit of Verizon in the course of transferring customers from Cavalier to Verizon.[671] In particular, when Verizon submits a local service request to Cavalier to move a customer Cavalier serves over a UNE loop to Verizon, Cavalier is required to initiate a loop disconnect with Verizon.[672] That is, Cavalier is required to order and coordinate a date for the customer's loop to be switched from Cavalier to Verizon.[673] Further, Cavalier is required to pay Verizon to effect the switch because, although Verizon performs the actual disconnect task, it is Cavalier's responsibility to arrange for

---

[666] Verizon Direct Testimony of Albert Panel at 2; Verizon Rebuttal Testimony of Albert Panel at 23 (citing Cavalier Direct Testimony of Ferrio at 3). Verizon's witness also stated that Verizon does not charge Cavalier to update the E911 database or to port the customer's telephone number to Verizon, which are two other activities performed in the winback process. *See* Verizon Direct Testimony of Albert Panel at 30; *see also* Verizon Rebuttal Testimony of Albert Panel at 22.

[667] *See* Tr. at 590-595.

[668] *See id.* at 607-08.

[669] *Id.* at 593-94.

[670] *Compare* Tr. at 640 *with id.* at 592-95, 607-08. We also note that although the Verizon witness originally testified that Verizon does not impose a disconnect charge, she later modified that testimony to indicate that Verizon does impose a charge for disconnection of an unbundled loop. *See id.* at 597-98, 606-07.

[671] Tr. at 640-42.

[672] *Id.* at 596-98, 606-07, 640-42; *see also id.* at 636-37.

[673] *Id.* at 636-39.

the necessary physical work to move the customer from Cavalier to Verizon.[674] Thus, the move from Cavalier to Verizon cannot be conducted unilaterally by Verizon, and, contrary to Verizon's allegations, the work Cavalier performs in connection with the Verizon winback is not solely for the benefit of Cavalier's internal records.[675] In fact, we find that Cavalier's work in connection with a Verizon winback is similar in purpose and scope to the work that Verizon is responsible for performing when Cavalier submits a local service request to Verizon to move a customer from Verizon to Cavalier.

205. In its direct testimony, Cavalier specifically identified the services for which it proposed to charge Verizon as the same or similar to services covered by Verizon's Service Order Connect and Installation charges.[676] To rebut this testimony, Verizon should have produced a witness who was familiar with its cost studies and could testify as to exactly what functions and associated costs are recovered in Verizon's $10.81 Service Order Connect and $2.68 Installation charges. Verizon's witness admitted both that in the loop installation process Verizon performs similar functions to those that Cavalier performs in the winback process, and that the associated costs might be recovered in these charges. Accordingly, the written testimony that Verizon "does not charge Cavalier for any of" the other activities specified by Cavalier[677] can only mean that individual charges for these activities do not appear in the Pricing Schedule, rather than that the charges contained in the schedule do not subsume these activities.[678] Based on the evidence presented, we conclude that Verizon does perform similar functions to those performed by Cavalier in the winback process, and that the associated costs may be recovered in Verizon's $10.81 Service Order Connect and $2.68 Installation charges.[679] In any event, Verizon

---

[674] *Id.* at 640-42. Although Verizon performs the physical disconnect, Cavalier pays Verizon to perform that task. *Id.*

[675] *Id.* at 636-42. *Cf.* Verizon Reply Brief at 70-72.

[676] *See* Cavalier Direct Testimony of Ferrio at 2-3.

[677] *See* Verizon Rebuttal Testimony of Albert Panel at 23.

[678] *See* Tr. at 592-95; 607-08. If that is not what the Verizon witness meant by this testimony, her written testimony was inconsistent with her oral testimony. In light of this, we find incredible her assertion that Verizon "does not charge Cavalier for *any* of" the other activities specified by Cavalier, particularly since Verizon admits that both Parties perform virtually the same functions when either carrier moves a customer to the other. *See* Verizon Reply Brief at 70. We also disagree with Verizon that these charges must be the subject of a Cavalier tariff filed with the Virginia Commission. *See* Verizon Brief at 76. In this instance, Cavalier seeks to recover from Verizon for functions for which Verizon charges it. To the extent that Cavalier intends to charge other carriers for similar services, that should be the subject of an agreement between those carriers.

[679] We believe that it is reasonable to permit Cavalier to charge Verizon the rate Verizon charges it for the same or similar services. Generally, rates charged by competitors are presumed reasonable as long as they do not exceed the comparable rate charged by the incumbent. *See generally Local Competition First Report and Order*, 11 FCC Rcd 16040-[illegible]aras. 1085-89. To the extent that Cavalier sought to justify a higher rate, we agree with Verizon that a cost st[illegible]ould be appropriate. *See id.* at 16042, para. 1089. Because, however, Cavalier seeks only to charge Verizon [illegible]at Verizon charges it, we disagree that a cost study is necessary. To the extent that Verizon's charges for comparable services are reduced in the future, Cavalier should also reduce its charges to the same level.

has failed to establish any other method through which the costs are recovered. Accordingly, we allow Cavalier to recover these charges when it migrates a UNE-loop customer to Verizon.

(iii) Arbitrator's Adopted Contract Language

206. The Arbitrator adopts the following language:

> IV. UNE-Related Functions Performed by Cavalier
>
> WINBACKS
>
> Winbacks – Service Order

>
> VI. Cavalier Operation Support Systems
>
> Under the same rates, terms, and conditions specified in this Exhibit A for analogous Verizon operation support systems functions
>
> VII. All Other Cavalier Services Available to Verizon for Purposes of Effectuating Local Exchange Competition
>
> Available at rates comparable to Verizon charges or at Cavalier's tariffed rates or generally available rates.

IV. ORDERING CLAUSES

207. Accordingly, IT IS ORDERED that, pursuant to Section 252 of the Communications Act of 1934, as amended, and Sections 0.91, 0.291 and 51.807 of the Commission's rules, 47 U.S.C. § 252 and 47 C.F.R. §§ 0.91, 0.291, 51.807, the issues presented for arbitration are determined as set forth in this Order.

208. IT IS FURTHER ORDERED that Cavalier Telephone, LLC and Verizon Virginia, Inc. SHALL INCORPORATE the above determinations into a final interconnection agreement, setting forth both the negotiated and arbitrated terms and conditions, to be filed with the Commission, pursuant to Section 252(e)(1) of the Communications Act of 1934, 47 U.S.C. § 252(e)(1), within 45 days from the date of this Order.

By Order of the Bureau Chief,

William F. Maher, Jr.
Chief, Wireline Competition Bureau
